

# Maor Saadia

## FullStack Developer

Beer Sheva, Israel • 0543446787 • maorsa9@gmail.com

 [maor-saadia-new-portfolio.vercel.app](https://maor-saadia-new-portfolio.vercel.app)  [linkedin.com](https://www.linkedin.com)  [github.com](https://github.com)

Highly motivated and results-oriented Full Stack Developer with a B.Sc. in Software Engineering and a proven track record of building and launching successful web applications. Expertise in Next.js, TypeScript, MERN Stack and related technologies, demonstrated through the development of an e-commerce and a SaaS creation platform. Eager to apply technical skills and entrepreneurial drive to contribute to a dynamic team and challenging projects.

## Work experience

**Freelance Software Developer** 08/2024 - Present

### Self-Employed

- As a freelance software, I developed, and deployed multiple web applications, leveraging modern technologies to create scalable, user-friendly, and revenue-generating solutions.
- Integrated and managed various third-party services including Wix Studio, Clerk, Lemon Squeezy, Sanity CMS, and Gemini AI, showcasing proficiency in API integration and backend operations.
  - Engineered responsive and user-friendly interfaces utilizing Tailwind CSS and Modern UI components (Shadcn), ensuring optimal viewing experiences across diverse devices and increasing user engagement.
  - Implemented key e-commerce functionalities such as secure authentication, tiered subscription models, payment processing, and dynamic search, resulting in functional and scalable platforms.

## Education

**B.Sc. in Software Engineering** 10/2020 - 10/2024

SCE – Shamoon college of Engineering, GPA 84

## Projects

**Portfolio Site**  

- Developed a dynamic portfolio website using Next.js, Tailwind CSS and Framer Motion, enhancing user engagement and showcasing technical proficiency in front-end design, with interactive animations with Framer Motion.
- Technologies: Next.js, TypeScript, Tailwind CSS, Framer Motion

**FindeRent - Mobile Apartment Rental Platform (Final Project at SCE)** 

- Developed a cross-platform mobile application using React Native, connecting students with landlords and streamlining apartment rentals near academic institutions.
- Implemented real-time chat functionality using Socket.io, enabling instant communication between users and fostering prompt responses, also designed a personalized roommate matching feature.
- Integrated Google Maps API to provide interactive maps and detailed property listings, enhancing user experience with a responsive dark theme mode, leveraging React Query for efficient data fetching and state management.

Technologies: React Native, Node.js, Express, MongoDB, React Query, Socket.io, JWT Authentication, Google Maps API

**Mishbaby - Ecommerce Platform**  

- Developed mishbaby.com, a full-featured e-commerce website.
  - Integrated Wix Studio for backend operations, enabling product management and payment processing (e.g., cart and checkout).
  - Responsive design using Tailwind CSS, ensuring an optimal viewing experience across devices and enhancing user engagement.
- Technologies: Next.js, TypeScript, Tailwind CSS, Wix Studio, Zustand

**AIResumeCraft - SaaS Platform**  

- Developed and launched a SaaS AI resume creation platform.
- Implemented a secure authentication system with Clerk, ensuring user data protection and seamless access to platform features.
- Architected a tiered subscription model with Lemon Squeezy integration, facilitating secure payment processing.
- Integrated Gemini AI to provide AI-powered resume assistance, enabling users to create professional resumes fast with automated content generation and suggestions.

Technologies: Next.js, TypeScript, Tailwind CSS, Clerk, Zustand, Lemon Squeezy, Gemini AI

## AliTrendsFinds - Affiliate E-commerce Platform

- Developed a responsive e-commerce affiliate platform, featuring categorized product listings sourced from AliExpress.
- Implemented a dynamic search functionality to enable efficient product discovery and improved user experience.
- Integrated Sanity CMS to streamline content management, allowing for real-time updates and enhanced control over product presentation and website content.
- Engineered a scalable and maintainable codebase adhering to modern web development practices, resulting in a clean design optimized for both desktop and mobile devices.

Technologies: Next.js, TypeScript, Tailwind CSS, Sanity CMS
